Project and Service Charges

General consultation is \$120 NZD + GST per hour.

Depending upon the kind of work being performed, the consultation or service rate may differ from the general consultation fee.

Projects fees are negotiable. Project and service charges will vary depending upon the project requirements.

Many of our services have maintenance options. This allows budgets to easily be drafted to account for maintenance charges scheduled either monthly or annually.

Lucid is available to bid in tenders for projects.

If you have any questions regarding project or service charges, then we ask that you to contact us.

Please note that additional travel, accommodation and food charges may apply. Please check with us for details on whether such charges will apply. If such charges will apply then we will be happy to prepare a quotation if you ask.
